

Warm up

Determine the difference.

$$1. 27 - 25 = 2$$

$$2. -34 - 12 = -46$$

$$3. -8 - (-3) = -8 + 3 \\ = -5$$

$$4. 3\frac{1}{2} - 4\frac{2}{3} = \frac{7}{2} - \frac{14}{3} \\ = \frac{21}{6} - \frac{28}{6} \\ = -\frac{7}{6}$$

$$- (+7) = -7$$

$$+ (-7) = -7$$

$$- (-7) = +7$$
